

MCMS Distributes Free PPE to Physicians in Private Practice

Maricopa County Medical Society, through items provided by the Maricopa County Department of Public Health, is distributing free PPE to physicians in the county. MCMS is very thankful to the county health department for their support. Items include surgical masks, N95 masks, isolation gowns (small-medium, large-XL, and 2XL-3XL sizes), nitrile gloves (small, medium, and large sizes), and protective goggles.

Free PPE is available to all physicians in Maricopa County in private practice. Please share this message with colleagues.

Requesting Supplies

Since hospitals already receive supplies from the state and county, these items will be for physicians in private practice. Given the high demand and limited supplies, please request PPE by completing a short form linked below. Then, MCMS staff will share details about when to pick up your supplies and what has been allocated to you.

Questions

If you have questions, then please email Shirley-Ann Hart at shart@mcmsonline.com or call 602-252-2015.

Donations Welcome

While the PPE is free, MCMS welcomes donations to support our excellent programs in support of member physicians and the communities in Maricopa County. You can donate through our 501(c)(3) Academy of Medicine Science of Maricopa County. We welcome donations made [online](#) through Network for Good.
