New Member Resource “Call Your Pediatrician” Video

Dear Members,

AzAAP believes in the value and importance of preventative care in keeping children healthy, as well as supporting our members through this challenging time. Almost a year into the COVID-19 pandemic, we continue to see a trend in the significant number of parents postponing or skipping their children’s immunizations. A video has been created to assist members in urging parents to call their pediatrician now to schedule well-child visits and immunizations to keep their children up to date. The video is available for members to utilize on their practice websites and social media pages. Feel free to share the video from AzAAP’s [Facebook](#) and [Twitter](#) pages or download the video file (in both English and Spanish) directly below. The files have also been made available on the [AzAAP Arizona Pediatric COVID-19 Training Center](#), and as a reminder, there you will find previous *Back to the Office* campaign materials for your continued use on your website and social media platforms. We hope you will join us in posting these videos to get Arizona families calling their pediatricians. Thank you for all that you are doing to ensure the delivery of safe pediatric care during the pandemic.
